

ВРАБОТУВАЊЕ

.Net Web Programmer

We are looking for a .Net developer (mid-level or junior) to build software using languages and technologies of the .NET framework. You will create applications from scratch, configure existing systems and provide user support.

In this role, you should be able to write functional code with a sharp eye for spotting defects. You should be a team player and excellent communicator. If you are also passionate about the .NET framework and software design/architecture, we'd like to meet you.

Your goal will be to work with internal teams to design, develop and maintain software.

Responsibilities:

- Participate in requirements analysis
- Collaborate with internal teams to produce software design and architecture
- Write clean, scalable code using .NET programming languages
- Test and deploy applications and systems
- Revise, update, refactor and debug code
- Improve existing software
- Develop documentation throughout the software development life cycle (SDLC)

Qualifications:

- Knowledge of C#, HTML5/CSS3/JavaScript, jQuery, Bootstrap, T-SQL
- Familiarity with the ASP.NET framework, ASP.NET MVC, .Net Core 2.x, SQL Server
- Familiarity with architecture styles/APIs (REST, RPC)
- Understanding of Agile methodologies
- Excellent troubleshooting and communication skills
- Attention to detail
- BSc/BA in Computer Science, Engineering or a related field
